**ZOOOK Studio Solo**

The ZOOOK Studio Solo looks like a cold punch. It comes in two colors – black and white. It has a 3.5 mm jack and a 3.5 mm aux port. The bass is bit harsh, though it has a powerful speaker. It comes with a built-in rechargeable battery. It connects via BT 4.0 and supports multiple devices at once. The ZOOOK Studio Solo is a decent speaker and can be used for outdoor parties.

**Syska SW 100**

Syska SW 100 is an entry-level smartwatch packed with a wide range of features. Getting this was easy and the watch sat very well on my wrist. The 1.3" touchscreen bright with good visibility, while its 180 hours battery life is quite impressive for a smartwatch. The SW 100 is relatively accurate in all-day heart rate measurements (I cross-checked it with a professional heart rate monitor) and also provides pulseox, call and sleep tracking. It also tracks your steps, distance and calories. Notifications were delivered quickly and accurately. I used this for more than 30 days on battery. The watch is also IP68 water-resistant and made for a tough lifestyle. I think Syska has given a thoughtful design for comfort and a longer usage of health features, but I don't think that the SW 100 is a must-have for the office. (Reported by Ashok Pandian)

**Western Digital  
WD Purple QD101**

32 GB

**WD Purple Micro SD**

Western Digital's WD Purple QD101 is built to withstand shock and vibration. It is designed for surveillance cameras and is perfect for WD Purple hard drives, cameras and Dashcams. The results were great – storage was stable, there was no loss of frames, there were no drops and overall video was smooth. Also, Purple QD101 is ready for the day. Intel's new 3D NAND technology security can also ensure data is protected to withstand temperatures ranging from -40°C to 85°C. It can be used in various industries such as mining, oil and gas, construction, agriculture, and more. It can be used in rugged environments where reliability is a must. Its read speed starts from 320 MBps S256K. Price varies according to capacity, reasonably low.
